LANDAU FORTE ACADEMY AMINGTON EXTRA-CURRICULAR
AFTERSCHOOL CLUB PROGRAMME OPEN TO ALL STUDENTS

www.lfata.org.uk

Welcome

Through the extra curricular programme at Landau Forte Academy Amington, students take part in activities that stretch and challenge them whilst building life skills that will stay with them forever.

Achieving a curriculum that has both breadth of content and depth in learning, is crucial in helping our students achieve their goals, develop their readiness for life after Landau Forte Academy Amington and to having high aspirations for their futures.

Education outside of the classroom is a fundamental part of a students' Landau Forte Academy Amington experience. Our extra curricular programme, ensures that students experience a range of character and resilience building out of classroom activities. The vast range of clubs enhance our students' interests, skills and talents outside of the usual curriculum; there's something for everyone to get involved in. The programme also helps students develop the three core values of Landau Forte Academy Amington: Ambitious, Brave and Kind, outside of a usual classroom context.

There is a huge variety of activities to get involved with. These include football, basketball and netball in sports; Fashion and journalism for creative minds, as well as key opportunities such as Student Leadership Team. We help students to initiate activities, such as searching for local competitions to enter or running a club for younger students, in order to develop leadership skills and provide the opportunity for students to give back to their local community whether that be through debate competitions or the Duke of Edinburgh Award.

The programme runs through our after school clubs, with students able to attend more than one club in a week to ensure that they try new activities that stretch and challenge them. Students will be guided by their Form Tutors and encouraged to try different activities that will enable them to step out of their comfort zone and work with students of different ages and friendship groups. Through the extracurricular programme, students are equipped with the skills and experience to pursue their own passions further, whether that be in learning a new language, coding or a specific sporting activity.
